

LEGAL CASE MANAGEMENT SYSTEM

NAME OF STUDENTS: Dalandangan, Nasrullah M.

SUBJECT/CODE: IT9aL – 8431

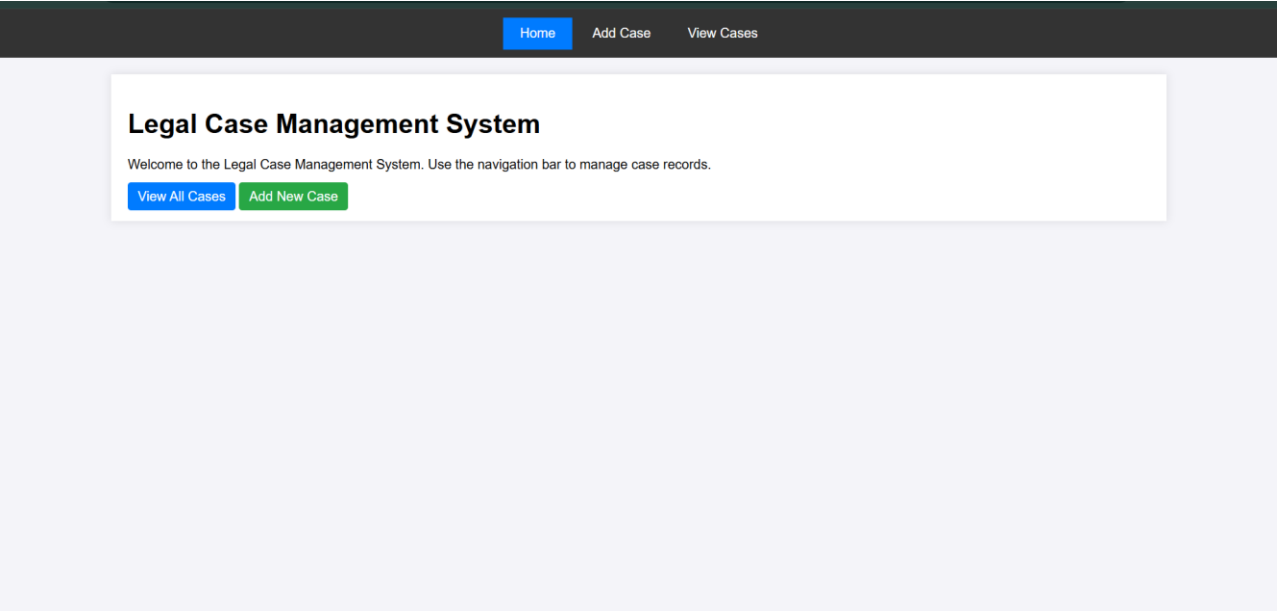

- Short description of the chosen CRUD transaction

The Legal Case Management System is designed to efficiently handle case records by allowing users to **Create, Read, Update, and Delete** legal case information. It streamlines case tracking, ensures accurate record-keeping, and provides quick access to client and case details for better management and reporting.
